

FIRST TUESDAY TALK LECTURE SERIES

**April 1
6-7 PM**

In the early 1970s, 93 sea otters were flown from Alaska to the Southern Oregon Coast. For nearly ten years, the otters made themselves at home, but gradually their numbers dwindled until they were all gone by 1981. What happened? **Bob Bailey, Board President of the Elakha Alliance**, will tell the tale and answer these burning questions.
